IT IS VITALLY IMPORTANT THAT THIS GUIDANCE AND THE ACCOMPANYING INSTRUCTION SHEET ARE READ IN THEIR ENTIRETY AND ANY ILLUSTRATIONS STUDIED BEFORE COMMENCING INSTALLATION OF YOUR FITTING. KEEP BOTH SHEETS FOR FUTURE REFERENCE.

1. This product MUST be installed by a competent person in accordance with current NATIONAL wiring regulations. If you are in ANY doubt, consult a qualified electrician.

2. The product MUST NOT be modified in any way, as this may result in a dangerous electrical hazard.

3. Unless otherwise marked/illustrated (e.g. IP rating), the lighting fit is only for use in a normal dry domestic indoor environment.

4. Ensure that the electrical supply is OFF by removing the fuse or switching off the breaker at the main distribution board.

Switching off at the wall is NOT adequate to restore the power supply cannot be restored by accident.

5. If removing an existing fitting first, make a note of all wiring connections.

Where ring/loop circuits exist there may be an extra set of wires which are not connected to the L, N or E of the fitting. These must be kept together in separate terminal blocks (not supplied) and the rest of the wiring connections are secure and do not foul loose strands of wire left out of other terminal blocks before fitting.

6. It is advised that fittings containing an LED driver should not be installed on the same electrical circuit as products containing inductive load such as transformers, motors or coils.

7. Information and guidance relating to LED Drivers can be found in our Advanced Guide to LED Lights & Drivers' document : www.astrolighting.com/support/downloads.

8. Carefully identify the position of the supply cable and check there are no other cables or water pipes in the area to avoid damage during installation.

9. Check that no wires are trapped behind or within the fitting when installing. 10. Astro provides a fixings pack with each product; however, there may be more challenging mounting surfaces which require specialist parts. 11. When changing lamps, switch off at the wall first and allow to cool before replacing, ensuring the correct type and wattage of lamp is installed. 12.

13. Please contact our technical department prior to use of any of our fittings in onerous situations, for example indoor swimming pool rooms, steam rooms, 14. If the product is required to be fixed to a wall, please refer to the relevant building regulations in your country.

15. The product should be kept clean and dry at all times. For specific guidance please see the 'Care and Cleaning of Astro Products' document which can be found on the Astro website support area : www.astrolighting.com/warranty.
